Procedural Controls</p> <ol style="list-style-type: none"> 1. Have all significant account balances and classes of transactions been identified by the entity's annual and other public reports? 2. Does the entity maintain an accounting manual? 3. Does the entity have formalized accounting processes for all significant account balances and classes of transactions? 4. Are these accounting processes defined and documented? 5. Is a separate process documented for adjustments to the records (journal entries)? 6. Are accounting manuals distributed to appropriate personnel? 7. Are the accounting records maintained on a current basis? 8. Does a complete and current chart of accounts exist that includes descriptions of items properly posted to each account? 				

ENTITY _____**June 30, 2008****INFORMATION AND COMMUNICATION**

QUESTION	YES	NO	N/A	REMARKS
9. Is a double entry system in use that includes a general ledger and subsidiary ledgers? If so, are they balanced monthly?				
10. Are all journal entries adequately explained and supported?				
11. Do all journal entries include adequate identification of the accounts in which they are to be recorded?				
12. Do the accounting procedures, chart of accounts, etc. provide:				
a. For identifying revenues, expenditures and balances of federal and state program funds separately for each grant/contract?				
b. A means to properly classify federal/state program revenues/receipts by source, grant and project?				
c. A means to properly classify federal/state program expenditures/disbursements by grant, project and activity?				
13. Does the accounting system provide for accumulating and recording grant expenditures/ disbursements as shown in the federal/state grant budget?				
14. Do the Officials reconcile their separate records monthly and properly resolve any differences?				
C. Custody				
1. Is access to accounting records limited to employees with designated responsibility for such records?				
2. Are there adequate physical safeguards maintained over accounting records, e.g., books of original entry, and the general ledger?				
3. Are the accounting records, including the supporting documents, retained and stored for a sufficient amount of time?				
4. Are there adequate facilities for safekeeping of the ledgers and related records?				
5. Are the accounting records for federal and state grants separately maintained in grant files or referenced appropriately to provide a clear audit trail for federal and state grants?				

ENTITY _____**June 30, 2008****INFORMATION AND COMMUNICATION**

Describe the procedures in which transactions, journal entries (recurring and unusual), and other events/adjustments are captured by the information system and included in the general ledger and financial statements. (AU Section 319.51)

Briefly summarize how the design of the information and communication process was identified.

Briefly summarize how the controls were determined to be implemented.

Briefly summarize the significant elements (major concerns) of the entity's information and communication process that affect the risk of material misstatement in the financial statements.

Identify the tests of controls, if any, performed to test the operating effectiveness of the controls.

ENTITY _____**June 30, 2008****MONITORING**

QUESTION	YES	NO	N/A	REMARKS
<p>OBJECTIVE: To obtain sufficient knowledge of how the entity monitors the continued effectiveness of its internal controls.</p> <ol style="list-style-type: none"> Does management review supporting documentation of allowable cost information? Do personnel, in carrying out their regular activities, obtain evidence as to the adequacy of internal controls? Is management adequately involved in designing and approving accounting system procedures? Does management take appropriate follow-up action for identified problems or weaknesses in internal controls (including matters communicated by the auditors)? Are there periodic comparisons of amounts recorded by the accounting system with physical assets? Is approval of a responsible official required for all general journal entries that are not standard entries? Is approval of a responsible official required for public distribution of financial reports and information? Are budgets required for governmental funds and proprietary funds? Are budgets submitted to administrators in accordance with an established time schedule? Are budget variances reported on a periodic basis and analyzed? Is the budget prepared and communicated in sufficient detail to provide a meaningful tool with which to monitor performance? Are budgets prepared for all significant activities regardless of whether mandated by law? Are interim financial reports prepared that compare actual results to prior results and current budgets? Are there established procedures for amendments of budgets that require adequate support for authorization of amendments? Are financial and statistical reports prepared for the governing body on a timely basis and frequently enough to be useful? Has management established policies and procedures that provide reasonable assurance of reliable accounting estimates? Do senior administrators use budget variance reports, operating analyses, or interim financial reports to monitor operations? 				

ENTITY _____**June 30, 2008****MONITORING**

QUESTION	YES	NO	N/A	REMARKS
18. Do independent personnel reconcile significant assets with accounting records and reconcile detail and control accounts at sufficiently frequent intervals?				
19. Does the entity have a functioning internal audit staff?				
a. Are internal auditors independent of the individuals or departments subject to audit?				
b. Is the scope of internal audit work reasonably comprehensive?				
c. Do internal auditors work from written programs?				
d. Are written reports issued by internal auditors on all work undertaken?				
e. Do internal auditors report the results of financial and compliance audits to senior administrators?				
f. Do internal auditors report to or have direct access to the audit committee?				
g. Is the senior official of the internal audit function elected or appointed by and reports directly to a governing body?				
20. Are all public officials and employees covered by a fidelity bond?				
21. With respect to service organizations which the entity uses to process transactions or which are part of the entity's information system:				
a. Is the contract between the entity and the service organization non-discretionary (that is, it does not give the service organization discretionary authority to execute transactions without the entity's involvement at the time of execution)?				
b. Is the service provided highly standardized and used extensively by many other entities (rather than being unique and used by only a few)?				
c. Does the entity retain responsibility for authorizing transactions?				
d. Are control policies and procedures applied to the transactions affected by the service organization's activities?				
e. Does the entity retain accountability for the transactions (does the entity maintain records supporting its assets and transactions involving those assets)?				
f. Does the service organization provide the entity with information about custody of assets, recordkeeping for assets, and transactions by the organization?				

ENTITY _____**June 30, 2008****MONITORING**

QUESTION	YES	NO	N/A	REMARKS
g. Is any information that is in the service organization's possession about the entity's assets verifiable by the entity?				
22. Do other parties outside the entity rely on the entity's financial statements?				
23. Do legislative or regulatory bodies impose monitoring or compliance requirements?				
24. Are reviews and follow-ups performed by outside parties? (i.e. grantor agencies)				

ENTITY _____**June 30, 2008****MONITORING**

Briefly summarize how the design of the monitoring process was identified.

Briefly summarize how the controls were determined to be implemented.

Briefly summarize the significant elements (major concerns) of the entity's monitoring process that affect the risk of material misstatement in the financial statements.

Identify the tests of controls, if any, performed to test the operating effectiveness of the controls.

QUESTION	YES	NO	N/A	REMARKS
<p>OBJECTIVE: To obtain knowledge about specific information system policies and procedures that management has established to provide reasonable assurance that specific entity objectives are achieved. The objectives include:</p> <p>A. Proper authorization of transactions and activities related to the information systems.</p> <p>B. Segregation of duties in functions related to the information systems.</p> <p>C. Design and use of adequate information system (IS) documents and records.</p> <p>D. Adequate safeguards over access to and use of the information system, assets and records.</p> <p>E. Independent checks on performance of IS functions.</p> <p>Accounting System</p> <p>A. Does the entity use a computer system to prepare their financial information?</p> <p>B. Are all funds, account groups, classes of transactions and/or account balances included on this system? (If not, identify additional systems.)</p> <p>C. Is a computer log maintained to determine who recorded a transaction, based on an employee's login name? (A computer log could be the identification of the employee who recorded a transaction based on their login name or it may be for a group of transactions. This information should be attached to the transaction in the data file.)</p> <p>D. Are all source documents numbered, with a unique number, when printed by the computer system?</p> <p>E. Are source documents completed and signed or initialed by the preparer before being entered on the computer? (including error corrections)</p> <p>F. Are adequate procedures in place to trace and correct input errors?</p> <p>G. Are corrections identified and recorded in such a manner that duplicate correction will not occur?</p> <p>H. If operating or financial reporting personnel rely on PC software reports generated by end users through the use of spreadsheets (for example, Excel, Lotus 1-2-3, and Quattro), are there procedures to ensure that such reports are accurate?</p> <p>Computer Systems</p> <p>A. Applicable Computer Systems</p>				

ENTITY _____**June 30, 2008****IS**

QUESTION	YES	NO	N/A	REMARKS
<p>1. Are computer systems being used by the entity for the transaction cycles as follows? Please document if the transaction cycle uses a computer (Yes) or manual (No), and if a computer is used, mark "M" if mainframe, "S" if server based system (LAN/WAN), or "PC" for personal computer. Also, document what computer software is used for each of the following:</p> <p>Cash</p> <p>Investments</p> <p>Inventories</p> <p>Capital Assets</p> <p>Long-term debt</p> <p>Receipts/Revenues/Receivables</p> <p>Taxes & Special Assessments</p> <p>Disbursements/Expenditures/Payables</p> <p>Payroll</p> <p>Transfers</p> <p>Budgets</p> <p>Working Trial Balances and Adjusting Journal Entries</p> <p>Financial Reporting</p> <p>Other (specify)</p>				
<p>B. Segregation of Duties</p> <p>1. Do users control who can perform various computer systems functions, such as data entry, error correction, or on-line edit and update?</p> <p>2. Determine/verify that access to programs, and functions within programs, is limited to those who have a legitimate need. Obtain a user profile report, which lists all users, their user ID's, and any software applications to which they have access.</p> <p>3. Are user profiles reviewed periodically?</p> <p>4. Are background checks done for Systems Administrators? Background checks could involve contacting the state or federal authorities to find out if a person has a criminal record.</p>				

ENTITY _____**June 30, 2008****IS**

QUESTION	YES	NO	N/A	REMARKS
<p>5. If the entity makes Electronic Funds Transfers (EFTs), are the personal bank account numbers of the employee making the EFTs restricted? (The system's administrator would set the entity's computer software to restrict the entry of the personal bank account numbers of the employee making the EFTs.)</p> <p>6. If the entity utilizes an IS department with programmers developing software for the entity, is there a written policy that the software developed by the programmers is the property of the entity?</p> <p>7. If the entity utilizes an Information Systems (IS) department, are the following functions segregated WITHIN the IS department when an IS programmer would be writing the software programming:</p> <p>a. System design?</p> <p>b. Application programming?</p> <p>c. Systems programming(operating system/utilities)?</p> <p>d. Quality assurance/testing?</p> <p>e. Approval of changes?</p> <p>f. Movement of changes into production?</p> <p>g. Computer operations/data input?</p> <p>8. If the entity utilizes an IS department, are the following functions performed only OUTSIDE the IS department:</p> <p>a. Initiation of transactions?</p> <p>b. Authorization of transactions?</p> <p>c. Preparation of source documents?</p> <p>d. Custody of assets?</p> <p>e. Changes to master files?</p> <p>f. Error correction?</p> <p>9. If the entity purchases software from a vendor, are the following functions performed only by the entity (no IS department):</p> <p>a. Placing programs into production (loading the programs into the entity computer system)?</p> <p>b. Initiation of transactions?</p> <p>c. Authorization of transactions?</p> <p>d. Preparation of source documents?</p>				

ENTITY _____**June 30, 2008****IS**

QUESTION	YES	NO	N/A	REMARKS
e. Custody of assets?				
f. Changes to master files?				
g. Error correction?				
C. Procedural Controls				
1. Are employees trained to challenge an unknown person using computer terminals or PC's?				
2. Is there a time out and/or log off function, which will protect a terminal if left unattended? If no, does the entity have a written policy for logging off unattended terminals?				
3. If the above procedure is not done, do entity policies require the use of screen saver passwords, which will protect a terminal if left unattended?				
4. Are the computer terminals always logged off before being left unattended for extended periods of time during work hours?				
5. Determine the procedures for computer logins and passwords as follows:				
a. Does a login name and a password uniquely identify users when they sign on to the system (e.g., no group users IDs)?				
b. Are the procedures for setting up new user/login ID names restricted to one person? Document who can authorize access. (System Administrator)				
c. Are employee login Identification numbers (IDs) removed immediately when their employment terminates?				
d. Is login access given to consultants removed when their work is completed?				
e. Are users restricted to those programs and functions within programs for which they have legitimate needs?				
f. When an employee's job duties change, is the login access changed so they have access only to the information needed for their current job duties?				
g. Are policies and procedures established to ensure that when passwords need resetting:				
• That only an authorized employee can request a password be reset?				
• That an employee cannot request another employee's password be reset and then gain access?				

ENTITY _____**June 30, 2008****IS**

QUESTION	YES	NO	N/A	REMARKS
<p>h. Does the entity have a written policy instructing employees on their responsibilities to maintain password privacy and confidentiality, including sharing their password with the employee's supervisor?</p> <p>i. Are employee passwords not shared with others, including the employee's supervisor?</p> <p>j. Are passwords changed at least every 60 to 90 days?</p> <p>k. Does the software force the user to change their password after every 60 to 90 days? (Recommended that the software force the user to change their password.)</p> <p>l. Is the password length set at a minimum of at least 6 characters? (Preferably 8 or more. The more characters in a password the more difficult it is for someone else to determine the password. Strong passwords will make it more difficult for password cracking tools to break a password.)</p> <p>m. Are the characters that are allowed to be used in a password set to all characters on the keyboard? (The Systems Administrator would set the characters that could be used for a password.)</p> <p>n. Are generic passwords used for new employees required to be changed? (Recommend to be changed in at least 30 days.)</p> <p>o. Is password history used to prevent someone from using the same password?</p> <p>p. If an employee incorrectly enters their password three times in a row, does the computer system deny them access to the computer system until reset by the system administrator?</p> <p>6. System backup procedures for mainframe:</p> <p>a. Are backups created and saved for each of the following: (A common practice would be to have seven days of backup tapes, which would be rotated and reused. The oldest tape would be used to backup today's activities. At the end of each week, another series of tapes would backup each week (four tapes for the month) until the month end backup. There should be monthly backups for the last twelve months (on a fiscal year). Those tapes would be rotated with the next fiscal year with the oldest tape used for the current month end backup. The fiscal year backup should also be saved.)</p> <ul style="list-style-type: none"> • Daily? • Weekly?

Recommend that backup tapes should be stored in a fireproof vault or safe.</p> <p>c. Are all backup tapes stored off site daily?</p> <p>d. Is there a complete system backup done at month end? (Backup would include all transactions plus programs.)</p> <p>e. Is there a complete system backup done at fiscal year end? (Backup would include all transactions plus programs.)</p> <p>f. Are critical files which reside on a LAN (Local Area Network) backed up using the same procedures as the main frame computer?</p> <p>g. Are critical files, which reside on a stand-alone PC (not on a LAN) backed up using the same procedures as the main frame computer?</p> <p>7. Is the computer system capable of remote data communications (i.e. dial-in-remote access/VPN (Virtual Private Network))? If yes, are there appropriate controls?</p> <p>D. Physical Access</p> <p>1. Do hardware controls include:</p> <p>a. Suitable physical environment as follows:</p> <ul style="list-style-type: none"> • Temperature and humidity control? • Sufficient power? • UPS (Uninterrupted Power Supply)? • Surge protection? • Protection from water sources (potential water pipe breaks)? <p>b. Does the entity have adequate fire protection as follows:</p> <ul style="list-style-type: none"> • Fire extinguishers? • Fire alarms? • Smoke detectors? • Halon gas or other non-water base fire suppression system? • Water sensor devices? 				

ENTITY _____**June 30, 2008****IS**

QUESTION	YES	NO	N/A	REMARKS
c. Are annual inspections of fire extinguishers performed? d. Has the entity done anything to minimize the risk of power surges and power failures? e. If power is interrupted, does the entity have an alternative power source? 2. Are there policies and procedures which restrict physical access to computer facilities to authorized personnel? 3. Are PC systems with hard disks, in areas where they are accessible to the public, controlled/monitored when left unattended? 4. Are terminals for public use restricted to read access only? 5. Is there adequate security over computer output to ensure that only intended users of data are receiving data? (This would include terminals restricted for public use.) 6. Have procedures been established to ensure proper disposal of sensitive media (e.g. shredding of printouts, complete removal of data and software from hard disks, diskettes, and magnetic tapes)? E. If the entity utilizes an IS department to write their IN-HOUSE software, are these procedures established for Systems Development and Software Program Change Control: 1. Is there a uniform systems development policy (including acceptance testing) that is followed for all new programs? 2. Is there a uniform systems change policy (including acceptance testing) that is followed for all changes to existing programs? 3. Are procedures in place to control "emergency fixes" to a production program? 4. Are there controls ensuring that superseded programs are segregated from the current version and removed from the production library? 5. Do IS policies and procedures require up-to-date documentation for each application, as follows: a. System flowchart? b. Record and report layouts? c. Program source code?

Identify any systems that initiate, authorize, record, process or report financial data in only electronic form. (When evidence of any entity's initiation, authorization, recording, processing or reporting of financial data exists only in electronic form, the auditor may determine that it is not possible to design effective substantive procedures which, by themselves, provide sufficient appropriate audit evidence that the relevant classes of transactions or account balances are not materially misstated. In such cases, audit evidence may be available only in electronic form, and its appropriateness and sufficiency usually depend on the effectiveness of controls over its accuracy and completeness. (AU314.119))

System	Account Balance/ Class of Transactions	Only Electronic Evidence Exists			Test of Controls Yes/No
		Initiation	Processing	Recording/ Reporting	

If yes, identify the general and application controls to be tested and develop an ICQ which addresses these areas. Note: Only test those general/application controls which pertain to the financial statement assertions affected by the above.

If no, document the audit evidence/procedures that will be performed to obtain an acceptable level of detection risk. Any procedure identified should be included under the approach to substantive tests for the applicable transaction classes.
